midmark™

Designing better care.

ANIMAL HEALTH

Equipment Catalog
2020

Solutions designed for companion animals and their care providers.

Better care doesn't happen by chance—it happens by design. Design that takes into account not just the space, but the people working in it. At Midmark, we believe that when you harmonize clinical space, workflow and technology, it leads to healthier patients, happier clients and staff, and contributes to success for the clinic's bottom line. It's this attention to our customers and design that has enabled us to transform the veterinary care environment.

Anesthesia

Midmark anesthesia machines (formerly Matrx®) are a longtime favorite of veterinary professionals around the world for inhalation anesthesia delivery. For over 50 years, each machine has been carefully manufactured to provide you with years of safe, simple and controllable inhalation anesthesia delivery. With wall, stand and tabletop configurations, we are sure to have the anesthesia delivery solution that fits your clinic needs.

Anesthesia Machines

VMS® Plus

The VMS® Plus provides the functionality you need with two shelves for convenient placement of monitors and equipment. Its dual-vaporizer mounting capability allows you to easily switch from one vaporizer to another.

- Includes Occlusion Valve with safety relief to prevent unsafe build-up in the anesthesia circuit/patient

- Negative Pressure Relief Valve—opens to provide room air to patient if contents of breathing bag are depleted

- Dual-view oxygen flowmeter–glass tube with a scale reading from 0.2 to 4 LPM—quickly switch from standard to magnified view at the touch of a finger

- Easy-to-view inhalation/exhalation valves allow easy monitoring of respiration for patient safety–no tools needed to disassemble

- Oxygen flush

- 1500 cc CO_2 absorber with quick release lever feature for easy absorbent replacement (accepts prepack canisters or 1350 grams loose absorbent)

- Scavenging/adjustable pressure limiting (APL) valve

- Breathing circuit pressure gauge

- 15 mm and 22 mm diameter corrugated breathing circuits

- One- and two-liter breathing bags

- Chrome portable stand with 5-leg spider base and casters

- Convenient monitor shelves

- Accepts Midmark VIP 3000® and TEC 3 vaporizers (one mounting kit included)

- Dual-vaporizer mount capability

- Oxygen low-flow flowmeter add-on capability

- Includes starter pack of Sodasorb LF

VMS®

The VMS® small animal anesthesia machine is a long-time favorite of veterinary professionals. It is designed for safe, simple and controllable small animal inhalation anesthesia. Optional shelves available.

- Includes Occlusion Valve with safety relief to prevent unsafe build-up in the anesthesia circuit/patient
- Negative Pressure Relief Valve—opens to provide room air to patient if contents of breathing bag are depleted
- Dual-view oxygen flowmeter—glass tube with a scale reading from 0.2 to 4 LPM—quickly switch from standard to magnified view at the touch of a finger
- Easy-to-view inhalation/exhalation valves allow easy monitoring of respiration for patient safety–no tools needed to disassemble
- Oxygen flush
- 1500 cc CO_2 absorber with "Quick Release" lever feature for easy absorbent replacement (accepts prepack canisters or 1350 grams loose absorbent)
- Scavenging/adjustable pressure limiting (APL) valve
- Breathing circuit pressure gauge
- 15 mm and 22 mm diameter corrugated breathing circuits
- One- and two-liter breathing bags
- Chrome portable stand with 5-leg spider base and casters
- Accepts Midmark VIP 3000® and TEC 3 vaporizers (mounting kit included)
- Oxygen low-flow flowmeter add-on capability
- Includes starter pack of Sodasorb LF

VME2®

The sleek, compact design of the VME2® can be upgraded with optional add-on components such as shelves, a second flowmeter, a second vaporizer, an occlusion valve with safety relief and/or an emergency air intake valve.

- Dual-view oxygen flowmeter—glass tube with a scale reading from 0.2 to 4LPM—quickly switch from standard to magnified view at the touch of a finger
- Easy-to-view inhalation/exhalation valves allow easy monitoring of respiration for patient safety–no tools needed to disassemble
- Oxygen flush
- 1100 cc CO_2 absorber and starter pack of Sodasorb®LF
- Scavenging/adjustable pressure limiting (APL) valve
- Breathing circuit pressure gauge
- 15 mm and 22 mm diameter corrugated breathing circuits
- One- and two-liter breathing bags
- Portable stand with 5-leg spider base and casters
- Convenient accessory shelf
- Accepts Midmark VIP 3000® and TEC 3 vaporizers (single mounting kit included)

VME2® Tabletop/Wall Mount System

Flexibility and performance at a low price.

- Light weight – 16 lb
- Compact design: 18 1/8" x 16 1/4" x 7 1/2" (HxWxD)
- Convenient carry handle with soft vinyl grip
- Accepts VIP 3000® or TEC 3 vaporizers (mounting kit included)
- 0.2 to 4 LPM dual-view oxygen flowmeter with standard and magnified views
- 1100 cc CO_2 absorber and starter pack of Sodasorb® LF
- Rubber foot pads help prevent scratching of countertop
- Breathing circuit package included
- Optional wall mount kit is available
- Low-flow model replaces the 0.2 to 4 LPM flowmeter with a 0-1000 cc oxygen flowmeter

Non-rebreathing Anesthetic Delivery Systems

VMR® Low-flow Non-rebreathing System

Designed for safe, simple and controllable inhalation anesthesia for rats, small rodents, exotics and patients weighing less than 5 lbs (2.27 kg). The VMR® provides rapid control of anesthetic depth with little resistance to respiration.

- Non-rebreathing anesthetic delivery system

- Dual-view oxygen flowmeter—glass tube with a scale that reads from 0-1000 cc/min—quickly switch from standard to magnified view at the touch of a finger

- Includes well-fill or key-fill isoflurane or well-fill sevoflurane VIP 3000® vaporizer

- Tabletop models feature a built-in handle and rubber feet

- Standard flow (0.2-4 LPM) and wall mount models also available

Vaporizers

VIP 3000® Vaporizer

The VIP 3000® veterinary vaporizer uses proven design principles to ensure output concentration is virtually unaffected by flow rate, temperature variations, duration of use, liquid level or back-pressure fluctuation within its clinical range.

- Automatic flow rate and temperature compensation

- Large, easy-to-read dial

- Integrated safety lock to prevent unintentional engagement

- Large sight-glass for at-a-glance liquid level monitoring

- Choice of agent-specific models for isoflurane or sevoflurane

Vaporizer Service

FACTORY SERVICE FOR ACCURATE, RELIABLE OPERATION

To assure continued accuracy and reliability, every Midmark VIP 3000® vaporizer should be serviced and calibrated annually. Service includes:

- Complete disassembly and cleaning
- Ultrasonic bath to clean internal metal parts
- Calibration and adjustment of Thermo Control
- Reassembly with new seals and wick*
- Cleaning/polishing of exterior parts

Vaporizers ARE NOT field serviceable. Disassembly or service by anyone other than an authorized Factory Service Technician may result in damage or subsequent unsafe operation of the vaporizer.

* If additional parts are required, you will be contacted with an estimate.

Our Vaporizer Service Center is staffed with highly qualified service technicians using state-of-the-art equipment. The Midmark VIP 3000® Vaporizer is a sophisticated device and under no circumstance should be tampered with or disassembled by anyone other than a Midmark-authorized vaporizer service technician. These units ARE NOT field serviceable.

Midmark VXP™ Vaporizer Exchange Program

Simple, convenient and effective

If you own a Midmark or Matrx® vaporizer that has been manufactured or serviced in the last five years, contact your dealer and request a Midmark VXP™ vaporizer. You will receive a vaporizer for the agent you specify (isoflurane or sevoflurane). Simply exchange your vaporizer with the Midmark VXP™ vaporizer and return it to the Midmark Vaporizer Service Center in the shipping carton in which you received your Midmark VXP™ unit.

When you receive your Midmark VXP™ vaporizer, mount it on your machine and you're ready to go. Enjoy no down time and the confidence of a cleaned, calibrated and tested vaporizer.

The Midmark VXP™ Vaporizer you receive has undergone the complete Midmark Vaporizer Service Center protocol.

91305535	Isoflurane VXP™ Well-fill Vaporizer
91305534	Isoflurane VXP™ Key-fill Vaporizer

Scavengers/CO$_2$ Absorbent

Veterinary Anesthetic Gas Scavenger

The Midmark Veterinary Anesthetic Gas Scavenger offers reliable active scavenging of waste anesthetic gas. It is designed to meet current ASTM and ANSI standards and is available in a post-mount or wall-mount configuration. Each wall- or post-mount scavenger unit will scavenge the waste anesthetic gas from one anesthesia machine.

- For maximum flexibility, the post-mount scavenger comes complete with 20 ft. (6 m) of 32 mm tubing, 5 ft. (1.5 m) of 19 mm tubing and post-mount hardware

- The wall-mount scavenger comes complete with 2 ft. (0.6 m) of 32 mm tubing, 18 ft. (5.5 m) of 19 mm tubing and wall-mount hardware.

- Replace charcoal canisters forever with an active gas scavenging system that quietly and consistently keeps you safe
- Designed to meet current ASTM and ANSI standards
- Available in post mount or wall-mount configurations
- Quiet operation
- Can be used with a ventilator or oxygenator
- Easy to install, compact design with few parts
- Standard 19 mm inlet connection
- Power on/off switch with indicator light
- Low voltage (12V DC) operation

91515178	Post-Mount Veterinary Scavenger (1.75" diameter fittings will fit most stand-mounted anesthesia machines)

Midmark Central Scavenger

The Midmark Central Scavenger safely removes waste gas from your clinic without the cost or hassle of charcoal canister replacement.

- Replace charcoal canisters forever with an active gas scavenging system that quietly and consistently keeps you safe
- Scavenge waste gas from up to four anesthesia machines
- Easily expand the system to cover up to 12 anesthesia machines without significant expense
- Keep your clinic neat and tidy without bulky interface devices attached to the anesthesia machines
- Simple installation process and flexible design ensures your scavenging system will be successfully installed
- Unparalleled service and support to give you peace of mind

40162800	Midmark Central Scavenger (for up to four anesthesia machines)
20236000	Expansion Kit (for up to four additional anesthesia machines)

This product has limited availability outside of the U.S. For confirmation, please contact Midmark Customer Experience.

Sodasorb® CO$_2$ Absorbent

The next generation of CO$_2$ absorbent with safety you can see.

- Permanent, high-contrast color change when absorbent capacity is exhausted or if absorbent becomes desiccated
- Eliminates the potential dangers that come with inhalation anesthesia such as the production of compound A, carbon monoxide, and heat generation due to desiccation
- Unique formulation makes the use of anesthetic agents more efficient
- Minimal resistance to gas flow
- Unique, uniform, pellet shape reduces caustic dust making for cleaner equipment and faster change-out
- Proven safety record ensures the comfort and well-being of both patients and staff
- Sodasorb® LF is available in jugs, convenient pre-pack cartridges and Canister Pak bags. Standard Sodasorb® is available in pre-pack cartridges, Canister Pak bags and a five-gallon pail.

002-1761-00	Sodasorb® LF Canister-pak Bag, Case of 12
002-1763-00	Sodasorb® LF Pre-pak Cartridge, Case of 12
002-1909-00	Sodasorb® LF Jug, Case of 3

002-1765-00	Standard Sodasorb® Five Gallon Pail

Ventilators

Model 3002PRO Small Animal Anesthesia Ventilator

An electronically controlled, time-cycled, pressure-limited ventilator, the Model 3002PRO replaces the breathing bag to provide smooth, even delivery of anesthesia. Designed specifically for veterinary practice, the 3002PRO assures a constant volume for each delivered breath, regardless of patient compliance and airway resistance. Easy-to-use controls make operation simple and convenient.

- Replaces the breathing bag
- Single volume control knob allows for minute changes with small patients
- Promotes regular breathing for a smoother plane of anesthesia, more normocapnic $PaCO_2$ levels and a more normal blood pH
- More economical use of supply gas (oxygen or clean dry air)
- Interchangeable bellows adapt to animals from 2.2 lb to 440 lb (1 kg to 200 kg)—no tools required
- Maximum working pressure limit (MWPL) adjustable from 10-60 cm H_2O
- Dual-airway pressure alarms monitor the peak inspiratory pressure (PIP) of every breath and sound when the PIP either exceeds the preset maximum working pressure limit (MWPL), or fails to reach 6 cm H_2O as in the case of a disconnect
- Standard low-supply gas alarm signals when supply-gas pressure falls below 35 psi
- Adapts easily to all anesthesia circuits with out-of-circuit vaporizers
- Accommodates respiratory rates from 6-40 breaths per minute at inspiratory flow rates from 0-100 LPM
- Built-in scavenging port
- Deliverable tidal volume (TV) range is from approximately 20 cc to 3,000 cc

91806001	Model 3002PRO with 300–1600 ml bellows and bellows housing Approx. Patient Weight Range 44–264 lb (20–120 kg)
91806002	Model 3002PRO with 0–300 ml bellows, bellows housing and adapter Approx. Patient Weight Range Up to 55 lb (0–25 kg)
91806003	Model 3002PRO with 1600–3000 ml bellows and bellows housing only Approx. Patient Weight Range 220–440 lb (100–200 kg)
91806005	Model 3002PRO with 300–1600 ml bellows and bellows housing plus 0–300 ml bellows, bellows housing, and adapter

Note: All versions of the Model 3002PRO Anesthesia Ventilator include Model 3002PRO controller, bellows base assembly, pressure-sensing tube and tee, driving gas tube, power cord, spare fuse and operating manual.

Note: For ease of installation, use an existing gas supply as the driving gas. Please order one demand wye and supply hose.

Small Animal Induction Chambers

A useful addition to conventional inhalation anesthesia procedures, the Small Animal Induction Chambers are available in four sizes to accommodate cats, small dogs, birds, mice and other small patients.

- Available in 45-liter, 18-liter, 5.25-liter and 1.5-liter sizes
- Constructed of 0.22" (5.6 mm) impact-resistant acrylic
- Inlet port accepts standard 22 mm breathing tube or 15 mm connector
- Outlet port accepts standard 19 mm scavenging tube or 15 mm connector
- Sliding, self-locking top has stops to prevent unintentional removal of lid
- Scratch-resistant feet
- Includes a hook-up kit to connect vaporizer to inlet port

20220601	45-liter Induction Chamber
93800038	18.5-liter Induction Chamber

Sterile Endotracheal Tubes

Superior cuff design helps you prepare for correct intubations every time. The thin, large diameter cuff conforms to uneven tracheal surfaces and maintains a proper low pressure seal. A high-compliance cuff lies close to the tube, improving visualization prior to inflation.

Midmark Occlusion Valve With Safety Relief

The Midmark Occlusion Valve with Safety Relief Assembly allows you to simply and quickly close the breathing circuit to allow you to bag (sigh) the patient.

- Easily attaches to your Midmark anesthesia machine, no tools required
- Constructed of long-lasting anodized aluminum
- Safety relief feature (25-30 cm H_2O) prevents unsafe pressure build-up in the anesthesia circuit/patient
- Simply operated by the push of a single silicone activation button
- Included with each Midmark VMS® and VMS® Plus Anesthesia Machine

93805114   Occlusion Valve with Safety Relief

Note: APL valve is NOT included
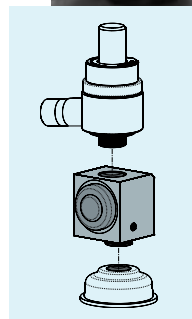

Occlusion Valve with Safety Relief attaches easily between the Midmark Exhalation Valve Dome and APL Valve as shown.

Absorber Quick Release Conversion Kit

Easily convert a thumb nut-style absorber to a convenient quick-release absorber. Simple flip-lever locking mechanism allows you to easily seal the absorber canister. Compatible with anesthesia machines manufactured by Fraser Harlake, Ohmeda and Matrx Medical.

91800138   Quick Release Conversion Kit

Go from a thumb nut-style absorber (left), to a quick-release absorber (right).

Maintenance Kit

All the parts you need for routine anesthesia machine maintenance in one convenient package—easy and affordable. Save money versus purchasing each item separately.

91303015   Maintenance Kit
             for Midmark VMS®, VMS® Plus, VMC

91303016   Maintenance Kit
             for Midmark VME® Stand Mount

91303017   Maintenance Kit
             for Midmark VME2®, VME® Tabletop

Resuscitation/Fluid Warming

Emergency Response Kits

Emergency Response Kits are available in two sizes and contain a Disposable Resuscitator, Animal Mask Kit, Oxygen Supply Tubing, Physiological Parameter List and Carry Case.

90000   Small Emergency Response Kit
                 for animals weighing less than 66 lb (30kg)

90001   Large Emergency Response Kit
                 for animals weighing 66 lb (30kg)

91351400   Replacement Mask Set
                 Includes 1 each: small feline, medium feline,
                 large feline, small canine and large canine mask

91150010   Oxygen Supply Tubing (7 feet)

LSP Disposable Resuscitator

Reliable, efficient ventilation with patient protection. Features non-deforming bag, pressure relief valve on Small and X-Small models, and connector for optional pressure-manometer or PEEP valve. Includes mask, oxygen supply tubing and oxygen reservoir. Not made with natural rubber latex.

91350666   Large (patients over 55 lb/25 kg)
                 Disposable BVM w/Bag Reservoir

91350667   Small (patients between 16 and 55 lb/
                 7.3-25 kg) Disposable BVM w/Bag Reservoir

91350668   X-Small (patients less than 16 lb/7.3 kg)
                 Disposable BVM w/Bag Reservoir

IV Fluid Warmer

- Portable and lightweight
- Convenient hanging strap to hang unit on IV pole
- Current temperature displayed in Fahrenheit or Celsius
- Temperature overheating protection
- Indicators for warming (orange), power (green) and overheating (red)
- Reduces prep time required for warming of fluid
- Can monitor temperature second-to-second
- Reduces patient discomfort due to cold fluid
- Compatible with standard IV sets
- Not recommended for use with blood products
- 1-year limited warranty

VF-4   IV Fluid Warmer

This product has limited availability outside of the U.S. For confirmation, please contact Midmark Customer Experience.

Boarding + Containment

Midmark containment offers the flexibility your clinic needs. Our variety of kennel door designs, modular cage units and stylish condos help improve workflow while achieving the look and functionality you desire.

Back to Contents

DOG SOLUTION
Stainless Steel Cages

Midmark stainless steel cages are manufactured with many features that enhance cleanability, strength and ease-of-use.

• Patient comfort enchancements added to latch and cage body for a 19% noise reduction over former design

• All 20-gauge 304 stainless steel construction—23% thicker than industry average

• Heavy-duty reversible door

• One-piece stainless steel hinge plate with multiple attachment points for stability and to help prevent sagging

• Stainless steel door features 3/8" diameter frame, 1/4" diameter crossmembers and 3/16" diameter vertical rods

• One-piece stainless steel corner/trim strips to enhance strength and stability

• Full 1" radius corners

• Heavy-gauge latch—padlock or door clip—extremely quiet—yet secure and easy to open and close

• Fluid retaining lip and larger radius corners allow for a cleaner kennel environment

DOG SOLUTION
Fiberglass Quiet Cottages

Finally, a warmer, quieter alternative.

Midmark's Quiet Cottages™ are a warmer, quieter, more attractive alternative. Manufactured with durable fiberglass materials, the units are the perfect choice for facilities that desire upscale housing. The unique design also offers flexibility and function not offered with standard cage banks.

Quiet Cottages raise the standard of care in caging. The molded, solid-surface fiberglass cage bodies ensure warm, attractive units that can also help keep noise to a minimum.

The units offer easy cleanup and are unaffected by harsh chemicals such as chlorine bleach and ammonia. Units are available with or without individual built-in drains to ensure sanitary conditions.

4' unit comes with optional double doors for easier handling of large dogs plus removable panel to convert unit to two 2' cages.

2 point latch (on 4' wide model provides strength and security).

DOG SOLUTION
Fiberglass Drying Cages

Units are available in both four-door and two-door models. The blower has a built in timer that shuts off the unit when the selected time has passed. It also has cleanable filters that require no tools to remove or install. It operates on a standard 110 volt current. The hoses have blast gates that open and shut from the outside for easy access and to ensure pet safety.

DOG SOLUTION
ISO-Care Quarantine Cages

Ideal for treating Parvo.

A growing number of veterinary hospitals and animal shelters are choosing the patented ISO-Care™ (D399609) for isolating animals due to contagious diseases or quarantine requirements. ISO-Care's innovative tempered glass design keeps all discharge within the unit – no more messy leaks! Plus, the attractive fiberglass interior washes clean in seconds. A two-tiered drainage system keeps wastes and liquids away from animals, exiting through ISO-Care's floor drain, which can be connected to a sewer outlet. A built-in fan vents contaminated air. A standard light provides added visibility to healing animals.

Available in single- or double-deck configurations. Units ship completely assembled and ready for operation.

10010778-316	28"x 28" x 34" Single stack, Aurora color

DOG SOLUTION
Dog Daycare Room Dividers

Dog Daycare Room Dividers from Midmark create customized spaces and flexible room dimensions. Popular in doggie day care, this mobile panel system can be moved around the room as needed to create flexible play spaces, which can be ideal for separating larger and smaller dogs during open play time. Isolation panels can be constructed with pet safe materials using FRP or Wilsonart® in any size, shape or dimension. They can be built with a door to easily allow staff access to either side of the play areas. Additionally, the divider panels are on casters, making it easy to wheel them into multiple configurations. The result is a colorful, economical way to divide spaces without requiring permanent walls.

DOG SOLUTION
Luxury Walk-In Dog Suites

Luxury Dog Suites provide long-term or short-term living space for dogs.

The perfect alternative to a block wall real-life room, Midmark's Luxury Walk-In Dog Suites provide all the functionality of a kennel without an institutional look. Rooms are more colorful and can be outfitted with beds, rugs, pictures and televisions for a living space or play area for dogs.

Additionally, a fixed piece next to the door can be solid glass or infilled with a variety of materials at any height to create privacy. The door can be configured in the same manner as well to add privacy, and can be designed with a door knob and lock set or with an aluminum pull handle and a deadbolt lock. The Luxury Stall Front can be configured with Midmark's Luxury Suite isolation panels or used with block wall or other materials.

Traditional Luxury Walk-In Dog Suites are constructed of bronze anodized aluminum with options that include colonial window mullions, Hardie Board and Hardie Plank siding.

DOG SOLUTION
Modular 2-Story Double Deck Kennels

Maximize revenue-producing capacity without compromising your quality.

Need room to grow, but you're limited on space? Just look up…to Midmark's patented Modular 2-Story Double Deck™ Kennels (6021739 & #6568350), the ultimate space problem-solver! Our exclusive design builds up to allow for additional runs, which results in additional revenue without expanding the building. All patented Double Deck Runs are full height and provide easy walk-in access for dogs and handlers, so revenue-producing capacity is maximized without compromising quality.

Engineered for flexibility, Midmark's Double Deck System can conform to a wide range of building dimensions, making it possible to install double deck runs in rooms as narrow as 14' with only 12' of interior head room. The Double Deck comes with a complete plumbing and drainage system for the upper level and aisles. Stairways provided by other manufacturers can be positioned in a variety of locations.

Choose from our Back-to-Back or Single-Row Double Deck System. Double Deck runs are available with any of Midmark's side panels, gates and accessories.

Silvis Seal™ + Sani-Slope™

Superior floor mounting AND leveling solution exclusively from Midmark.

Available only on Midmark's Sani-Kennel™ systems, the patented Silvis Seal™ (#8707903) and patented Sani-Slope™ (#6152080) provides both superior floor mounting and leveling.

- Provides the ultimate solid watertight seal underneath division panels to ensure a one-of-a-kind layer of protection even if an isolation panel's silicone seal becomes cracked, hard or broken

- Prevents cross-contamination even when the primary bead of floor sealant has been breached or where there are cracks, waves, irregularities or other imperfections in the floor

- Is able to tolerate harsh cleaning agents such as chlorine bleach and ammonia, and withstands the force of pressure washing systems

Sani-Slope™ Advantages:

- Panels quickly and easily level to match the floor slope
- No need to cut panels to match the floor slope
- Less worry about floor dimensions
- Easily adapted to coved walls

NOTE: For ordering information or questions on part number items shown above, contact us at **1.800.543.5567**.

DOG SOLUTION
Stainless Steel Kennels

- Constructed of 22 gauge 304 stainless steel
- 3/8" diameter stainless steel rods on doors and side panels (most kennel run manufacturers use 1/4" or 5/16" rod)
- 1" stainless steel square tubing
- 4' of visual isolation with stainless steel side panel
- 1" solid cell insulation between panels–impermeable to liquids
- Three different door style options

STANDARD DOOR

- Reversible stainless steel doors – side by side units may be opened in opposite directions
- Stainless steel door hinges are mounted on the top and bottom, not the side

SLIDING DOOR

- One-hand operation
- Maximizes kennel room and eliminates the need for "swing door" space
- Maintenance-free marine grade anodized aluminum glide
- Available with stainless steel rods or glass panels

GLASS DOOR

- Full view for easy observation
- Easy, convenient cleaning
- Aesthetically pleasing
- Scratch resistant
- Available in sliding or hinged models
- Optional frosted glass available

NOTE: For ordering information or questions on part number items shown above, contact us at **1.800.299.9525**.

DOG SOLUTION
UltraBase™ Above Floor Kennels

No floor seam to bend, break or leak.

With no gutter or special sewer lines required, Midmark's UltraBase Above Floor Kennel System allows for the installation of indoor kennels in spaces not normally constructed for housing animals. The elevated floor stretches kennel space to install in locations that weren't previously possible.

The one-piece molded fiberglass base has a gentle side radius that extends up 6" so there is no floor-side seam to flex, crack and leak over time.

The base unit securely attaches to Midmark's isolation side panels for a watertight seal. Midmark's UltraBase features a slip-resistant floor base unit carefully engineered with an easy-to-clean special permanent texture and adjustable legs, allowing for installation on uneven floors.

DOG SOLUTION
Space Saver Folding Kennel

Maximize Your Space and Increase Your Bottom Line.

Midmark's innovative Space Saver Folding Kennels provide the ultimate flexibility in room configurations as it offers an overflow option for boarding. Dogs can be isolated as needed or the system can fold up quickly to change the usage of the space. These collapsible kennels are perfect for pet resorts and veterinarians with boarding who want to customize doggie daycare space to maximize space and increase the bottom line.

Midmark's Space Saver Folding Kennel uses the existing floor with Midmark's patented Silvis Seal™ to prevent cross-contamination. This eliminates the possibility of diseases that can be spread from a flooring system and ensures the area is easy to clean.

Standard sizes are 3' x 3 or 4' x 4'.

The upper section can be designed with stainless steel wire, bone grid or a solid material (FRP, Wilsonart or stainless steel over Polycore). The bottom section can be designed with FRP, Wilsonart® or stainless steel over Polycore.

Note: The system requires a flat solid wall and 3' of clearance on both sides.

DOG SOLUTION
Tri-Kennels

The Tri-Kennel is a back-to-back run system providing three runs in the same space as two.

The Tri-Kennel combines a full height Sani-Kennel on one side with Midmark's Double Stacked Run System, the K-9 Cabins, on the other. The three units share one back panel for cost savings. The transfer door in the lower half of the back panel enables the lower K-9 Cabin to open to the Sani-Kennel, creating a variety of configuration options for staff and dogs.

The upper K-9 Cabin is available with optional side panel transfer doors (shown) for even more flexible space, with or without a rear drain system. Midmark's bowl feeding systems are also available.

Optional raised lower floors and drains are available on both the lower K-9 Cabin and the Sani-Kennel. The Sani-Kennel is available with Midmark's patented Silvis Seal barrier to eliminate cross-contamination.

The Tri-Kennel system is available with any of Midmark's side panels and gate options as well as Midmark's patented two-way stainless steel latch.

CAT SOLUTION
Cat Condos-Raintree

Raintree™ Cat Condos from Midmark are beautiful, durable, high quality pieces of furniture with amenities designed especially to pamper finicky felines.

Designed specifically for feline boarding needs, standard features include a built-in feeding/watering ledge, a resting shelf and a privacy area for litter. The Raintree™ Cat Condo is the ultimate in comfort and functional design.

Each condo consists of a top and bottom unit with coated wire mesh doors for healthy air circulation, or optional tempered glass doors and internal air ducts. Each module is 84" tall, 24" wide and 24" deep. Stainless steel hinges with a soft close feature help decrease stress and anxiety by eliminating slamming doors that can startle and scare cats, improving their health and well-being.

CAT SOLUTION
Cat Adoption Units

Midmark's Cat Adoption Units are perfect for showcasing cat areas, encouraging adoption and enhancing the look of the room.

Tempered glass on the back promotes viewing and adoption by providing an unobstructed view of the cats and is more scratch resistant than acrylic, ensuring a clearer viewing surface. Units can also be positioned to allow maximum visual stimulation of the cats' environment.

A standard 15" deep shelf maximizes space for cats and provides ample room for food and water bowls while allowing for optimal visibility of the cats through the glass.

The wire grid front promotes airflow and improved animal health while also allowing for interaction with facility staff. The gates include an easy-to-use latch with an option for key locking latches. Stainless steel hinges with a soft close feature help decrease stress and anxiety by eliminating slamming doors that can startle and scare cats, improving their health and well-being.

The units can be configured in two or three tiers. Designed to be installed on a prepared base, these adoption units are perfect for installing on a deck, and when coupled with a soffit above they turn an entire wall into a space to showcase cats available for adoption. Units arrive fully assembled and the standard size is 28" x 28" x 28".

Call for 1.800.543.5567 for a custom quote!

CUSTOMIZABLE OPTIONS

Size: Midmark offers units to maximize your facility's capacity

Finishes: Almond, Mahogany Impressions, Napa Cherry, Swiss Pear

Accessories: Glass Fronts, Wire Fronts, Glass Backs, Vertical/Horizontal Portals, Keyed Latches, See other accessories (page 62)

CAT SOLUTION
Cat Towers

Maximize Space with Customized High-Rise Apartment Living for Cats.

The Cat Tower from Midmark provides customizable long-term or short-term living space for cats.

The Cat Tower features larger, more open areas as well as multiple levels of play area and living space, including hiding areas to ensure cats can escape to de-stress when necessary. It is completely customizable - units can be specified to 1/8 of an inch - and is completely non-organic and can include various materials to meet a facility's specific needs. It comes with Midmark's magnetic safety gate latch.

The Cat Tower is also excellent to use in facilities that board cats. Because it is modular and completely customizable, the Cat Tower can be designed to feel like high-rise apartment living space for cats while maximizing facility space. By creating a more enriching environment that provides ample room, cats are happier, healthier and easier to adopt or board.

Optional portals can be added. Designated feeding areas as well as litter space can be custom designed. It can also be built to include Midmark's Raintree™ Cat Condo as the living area for the cats with the Cat Tower as supplemental play space.

CUSTOMIZABLE OPTIONS

Panels: Stainless Steel, Wilsonart, FRP Panels

Finishes: Stainless Steel, Tempered Glass,

Accessories: Shelves/Ledges, Portals, Bowl Systems

CAT SOLUTION
Custom Cat Runs

Allow Maximum Space and Flexibility for the Cats in your facility.

Midmark's custom cat runs are designed to allow maximum space and flexibility for your cat population. The units are custom manufactured and built to any length, width and height to maximize facility space and provide ample room and multiple levels of climbing ladders and perching shelves for cats to exercise, lay, play and sit. Midmark's custom cat runs are attractive and quiet, helping to promote healthier animals and increase cat adoptions.

Midmark's cat runs are available with durable FRP, stainless steel or Wilsonart side materials. They are available with any gate style we manufacture and come standard with Midmark's patented stainless steel two-way latch. They are available with or without cat doors.

CAT SOLUTION
Fiberglass Cat Suites

The Fiberglass Cat Suite is designed around best practices as identified by universities and shelter veterinarians to minimize stress for cats. The two compartments are joined by a 7" wide portal with closable door. Manufactured with durable fiberglass, the cat suites are warmer and quieter.

A shelf is included on the 36" living side that can be removed for easy cleaning. The shelf is 30" wide x 12" deep and approximately 14" off the floor to provide an additional 2.5 square feet of space in the unit.

The separate smaller litter area has a portal door in the back of the unit that can be left open or secured closed for increased capacity.

Evolved from Midmark's popular Quiet Cottage,™ the Fiberglass Cat Suite is designed with horizontal wire to reduce fear and is white powder coated for a softer appearance. The molded, solid-surface fiberglass cage bodies ensure warm, attractive units that also help keep noise to a minimum.

A translucent ceiling lets light in to what were historically dark cages.

Midmark's Fiberglass Cat Suite is designed with the MagnaLatch, which offers simple and effective latching. Unlike other metal latches, the MagnaLatch is quiet, eliminating the stress cats can experience from loud noises. Because it is magnetically triggered, the latch does not jam or stick and can't be forced open from shaking or pulling. Constructed of strong, molded polymer and stainless steel, it won't rust, bind, sag or stain. A key locking version is an available option as well.

CAT SOLUTION
Luxury Cat Condos

Midmark Luxury Cat Condos are specifically designed for animal shelters based on the Association of Shelter Veterinarians guidelines for feline housing.

The condos are attractive and quiet, helping to promote healthier animals and increase adoptions. Each condo incorporates separate litter and hiding units as well as sleep and exercise areas. Cat perching shelves and easy-close portal doors are standard. Stainless steel hinges with a soft close feature help decrease stress and anxiety by eliminating slamming doors that can startle and scare cats, improving their health and well-being.

The wire grid front promotes airflow and improved animal health while also allowing for interaction with facility staff. The latch is trouble-free and easy to operate.

- Units are available in 3' or 4' widths and in single or double stack configurations

- Available in a variety of non-organic materials

- Options available include:
  - Tempered glass doors
  - Tempered glass rear window
  - Tectangular closeable portal opening between upper and lower units

- Units come standard with swivel type casters for ease of movement and are available without casters

- Units are manufactured with a front debris retention lip

Napa Cherry

GLASS FRONT OPTION

Midmark Luxury Cat Condos can be ordered with glass fronts for a much healthier and more secure way to house cats. The glass is offset 1/8" and hangs over the door, allowing air to circulate under and into the cat's living space and keeps debris and disease from traveling to other units. Other units have portals in the front in the glass, which means germs can spread if a cat sneezes and fingers can get into the unit.

CAT SOLUTION
Quiet Cottages Fiberglass Cages

Midmark's Quiet Cottages™ are a warmer, quieter, more attractive alternative.

Developed in response to customer requests for caging solutions that do not "look institutional." The molded, solid-surface fiberglass cage bodies ensure warmer, attractive units that can also help keep noise to a minimum.

Optional cat shelves add vertical space to Midmark's Quiet Cottages™. Constructed of a nonorganic material, the shelves are easy to clean. The small stationary cat shelf is 22.75" wide x 20" deep. The removable cat perch fits both the medium and large width Quiet Cottage™ units and sits free on the bottom of the units. It provides two levels of perching, with an overall dimension of 14" high x 19" wide x 25" deep.

AVAILABLE WITH OR WITHOUT DRAINS

The units offer easy cleanup and are unaffected by harsh chemicals such as chlorine bleach and ammonia. Units are available with or without individual built-in drains to ensure sanitary conditions. Units equipped with a floor drain have the added ability to be hosed down instead of wiped out.

Quiet Cottages™ with drains can be configured for your exact caging needs. The units arrive completely assembled with internal plumbing already complete. Just route the final plumbing from the bottom of the units to your floor drain, and your units are ready to use!

4' unit comes with optional double doors plus removable panel to convert unit to two 2' cages.

2 point latch (on 4' wide model provides strength and security).

Heating Options Can Make Post-Surgery Healing More Comfortable.

- Heating pads installed beneath fiberglass cages provide warmth to animals as they recover from procedures

- On/off switch on front of unit for easy operation

Cabinetry + Carts

Synthesis® Cabinetry is tailored to the needs of your practice. The flexible design is easily configurable to the continually changing needs of a contemporary veterinary clinic, while the quality of the materials and meticulous construction make it a lasting investment.

Synthesis® Cabinetry Collection

The Blend of Beauty, Function and Design

Remodeling or building a new space can be overwhelming. That's where we come in. Synthesis® Cabinetry is designed to be easily configured to meet the needs of your unique space today and into the future. Let our in-house design team bring our inspired aesthetics, clinical designs and dependable Midmark quality together to help you create the clinical space of your dreams.

Initial Design Creation

Our in-house design team is skilled in creating efficient, effective veterinary workspaces.

Design Refinement

Our expert design team can create 3D virtual renderings of your dream space so you can see your options in living color.

Ordering and After-Sale Support

We'll see every detail through to ensure a positive experience from start to finish.

Contact Cabinetry Project Coordinators at **1.844.856.1236**.
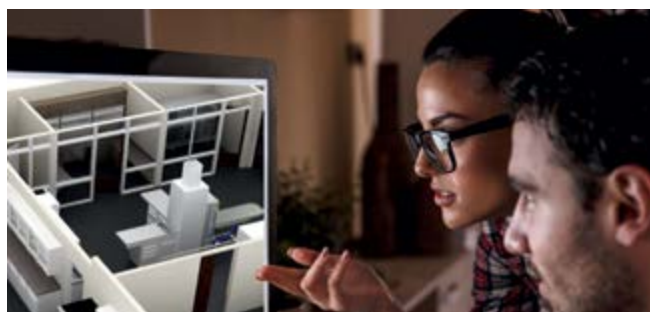

Synthesis® cabinetry is designed to withstand the rigors of animal healthcare environments.

- Seamless polystyrene drawers with rounded corners and one-piece construction allow drawers to contain spills and be easily cleaned

- Steel frame construction delivers long life and consistent door and drawer performance, while the flexible shell design allows configuration changes as needed

- Soft-close hinges and glides help maintain a quiet environment, supporting patient comfort

- Durable, adjustable 110-degree steel hinges give a distinct, clean look to the cabinetry

- Adjustable, self-cleaning ball bearing glides allow the drawers to slide in and out smoothly every time

- Optional EPA-registered antimicrobial pulls and surfaces help complement your current asepsis procedures

- Seamless, polymer-covered panels provide a durable surface that resists spilled fluids and chemicals and can be cleaned with no surface degradation

Exam Room Cabinetry Solutions

Synthesis® Cabinetry can be designed especially for your clinic by our in-house designers. We will design an efficient exam room workflow with your choice of how you want to interact with your patients and clients.

Midmark has a wide range of exam table solutions including our popular Midmark Lift Table. We also offer fixed-height island and peninsula tables, with and without overhang, in 48" and 60" lengths plus several folding exam table options.

Treatment Room Cabinetry Solutions

Create the perfect solution for your treatment room with our wide range of optons. We can help you design a practical, efficient space that's specific to your needs.

Synthesis® cabinetry is more durable than traditional wood and laminate cabinetry and is warmer in appearance. Plus, Synthesis® cabinetry is designed to integrate seamlessly with other Midmark equipment.

NOTE: For ordering information or questions on part number items shown above, contact us at **1.844.856.1236**.

Veterinary Treatment Chase

Our space-saving chase designs allow you to have the equipment you need, where you need it, without sacrificing floor space. Let us help you create the most efficient, effective space possible.

- The treatment chase units are pre-configured to arrive at your clinic ready for installation of our equipment
- Wall mount light plates bolt securely to the chase unit so your procedure or exam light can be positioned where you need it with no sag or drift
- Plumbing and electrical lines are neatly concealed within the chase
- The pentagonal unit has convenient 4" access panels

MIDMARK BUR STARTER KIT

Contains one of each standard bur and labeled, autoclavable holder.

002-1158-00	Midmark Bur Starter Kit

002-1158-00

RODENT DENTAL BUR KIT

|	
002-1664-00	Rodent Dental Bur Kit for use with Midmark low-speed handpiece (002-1277-01) and 1:1 nose cone (016-1605-00)
016-1204-10	Replacement diamond disc, medium grit, #930D
016-1204-11	Replacement diamond Bur, extra long, 60 mm

002-1664-00

CROSSTEX TWIST PROPHY ANGLES

The Crosstex TWIST is a unique, disposable prophy angle that moves in a 90° reciprocating, back-and-forth motion instead of a traditional spinning motion, which reduces hair and whiskers getting caught. This patented design eliminates the spatter of prophy paste, saliva, blood and other potentially infectious matter. It also eliminates frictional heat while maintaining continuous contact and pressure on the tooth surface.

002-1279-00	Crosstex TWIST prophy angles, 10/pk
002-1279-02	Crosstex TWIST prophy angles, 100/pk
002-1159-00	A. Autoclavable Prophy Angle
002-1160-01	B. Prophy Cups, 144/pk.

SATELEC® PIEZO HANDPIECES

- Linear vibration mimmicks hand scaling
- Produces less heat to prevent enamel damage
- Thicker hand piece to help with hand fatigue
- Requires less water to cool tips
- LED option provides excellent lighting in hard to see areas
- Cruise control feature regulates scaling pressure to ensure patient safety

016-1218-00   Scaler Hand Piece

016-1375-00   LED Scaler Hand Piece

ACTEON SATELEC® SCALING TIPS*

Made from the best alloys, exclusive to Satelec®, using patented procedures.

- Corrosion resistant
- Autoclavable
- Calibration: each tip is individually tested and "tuned" using the latest in ultrasonic calibration techniques.
- Spray Control System (SCS): more powerful cavitation, better spray control and perfectly-controlled vibration energy at the end of the instrument.
- Color Coding System (CCS tips): inserts are color coded to show their recommended power range.

016-1203-00   Universal, Tip No. 1

016-1203-03   Voluminous Calculus, Tip No. 2

016-1203-04   Shallow Pockets, Tip No. 10P

016-1203-01   Subgingival, Tip No. 10Z

016-1203-02   Periodontics, Micro Universal Curette, Tip No. H3

DR Dental Radiography Sensors

The industry's first and only veterinary-specific, bite-resistant sensor from the leader in digital dental radiography—Midmark. We've combined our unsurpassed image quality with a patented sensor housing to provide clear, crisp images with unbeaten resistance to bite damage—four times more than our standard sensor.

The Midmark digital sensor is designed to deliver the soft-tissue visualization plus crown and root definition that you need to ensure you are providing your patients with superior dental care.

- Patented bite-resistant sensor housing design

- Kevlar® reinforced cable, designed for improved durability

- Waterproof, hermetic seal designed to reduce problems encountered during routine cleaning

- CMOS technology, for enhanced image quality

- Rounded corners means easier positioning in tight spaces for better capture of roots

- Free software and technical support

- 4 hour CE, in-clinic training course on software and positioning training

Midmark DC Generator

The Midmark DC Generator has the most stable arm in the industry. Due to a proprietary braking mechanism in both the horizontal and articulating arm, this is the market leader. Midmark DC is a high-frequency, veterinary-specific dental radiography system designed to meet the needs of digital imaging.

- Exceptional image quality with digital sensors
- Compatible with phosphor plates and film
- 0.4 mm focal spot; 60, 65 or 70 kV; 4,5,6 or 7 mA
- Unique LCD display and menu
- 30 pre-programmed technique settings
- Tube head positioning handle; and control panel that can be mounted in a separate location.
- 56", 66", 76" and 82" or mobile systems available
- Two-year warranty

Dental Radiography Software

Midmark Radiography Systems include our own easy-to-use imaging software. Look and formatting are familiar and easy to learn. Acquire, enhance and store images with ease. Our software features canine and feline tooth templates organized using the Triadan System, is DICOM compliant, and able to work with leading practice management systems and PACS servers.
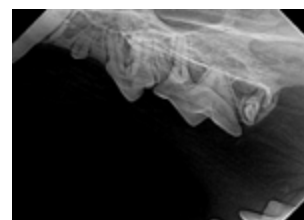

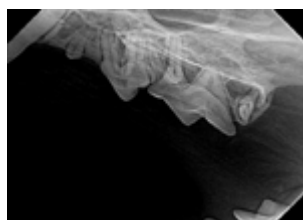

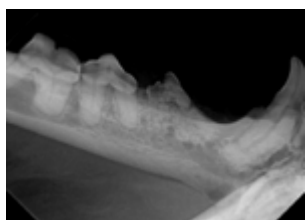

- Ongoing support and lifetime of upgrades

- Unmatched image quality

- Intuitive and easy to learn interface

- Simplified and customizable acquisition

- Native DICOM format

- Easily accessible enhancing tool bar

- Customizable templates

- Interfaces with practice management software

- Print custom take home reports

- Email option from work surface

- Modality worklist compatability

Midmark In-Clinic Training

Comprehensive, hands-on, half-day training performed in your clinic by a member of the Midmark Animal Health Training and Education Network.

Dental Radiography Positioning Training

This in-clinic training will help your entire staff become more efficient with acquiring those challenging views.

Training topics include:
- Generator usage
- Midmark imaging software training
- Positioning techniques for both canine and feline patients
- How to overcome common positioning mistakes
- Proper maintenance and storage techniques

Veterinarians and credentialed technicians who complete this session will earn 4 hours of CE credits* for dental radiography and positioning training.

VI-CSP   Dental X-ray Positioning Training

4 CE Credit Hours!*

Cleaning, Probing and Charting Training

This training will help participants become familiar with best practices for dental cleaning, probing and charting.

Training topics include:
- Preparation—including rinse, before and after photos, proper attire and safety
- Execution—including tools, sub/supra-gingival scaling, polishing, probing and charting
- Instrument sharpening and care
- Common pathologies
- Anatomy review and Triadan numbering system
- Probing technique
- Proper use and maintenance of your Midmark high-speed system

Veterinarians and Veterinary Technicians who complete this session will earn 4 hours of CE credits* for Dental Cleaning, Probing and Charting Training.

VI-CPC   Cleaning, Probing & Charting Training

4 CE Credit Hours!*

*These programs were reviewed and approved by the AAVSB RACE program for four hours of continuing education in jurisdictions which recognize AAVSB RACE approval. Please contact the AAVSB RACE program if you have any comments/concerns regarding a program's validity or relevancy to the veterinary profession. Provider #436.

QuickClean Ultrasonic Cleaners

Providing powerful, effective cleaning and consistent results, Midmark QuickClean™ Ultrasonic Cleaners are a piece of equipment your clinic shouldn't be without. The cutting-edge technology helps you create a safer, more efficient work environment by decreasing your team's exposure to contaminants and potential sharps injuries while reducing the time and effort needed for cleaning.

- Simple to operate with a digital LCD control panel, options for preset cycles and a fluid level sensor
- Powerful Frequency-Leap technology helps ensure instruments are cleaned the first time, every time
- Full-size safety basket included
- Range of sizes and options including three tabletop and two recessed models
- 3-year limited warranty

Instrument Processing Workflow

Follow established instrument processing best practices, outlined here, to create a smooth workflow from dirty to clean that will help contain contamination and maximize the efficiency of your instrument cleaning and sterilization process.

STEP 1
Receiving, Cleaning and Decontamination: Reusable instruments, supplies and equipment should be received, cleaned and decontaminated in one section of the processing area.

STEP 2
Preparation and Packaging: Cleaned instruments and other supplies should be inspected; assembled into sets or trays; and wrapped or packaged for sterilization.

STEP 3
Sterilization: The sterilization area should include the sterilizer and related supplies with adequate space for loading, unloading, and cool down.

STEP 4
Monitoring/Sterility Assurance: Use mechanical, chemical and biological monitoring to ensure effectiveness of the sterilization process.

STEP 5
Storage: The storage area should contain space for sterile items and disposable items. Supplies and instruments should not be stored under sinks or in other locations where they might become wet.

Lighting + Scales

The advanced lighting design of Midmark operating lights delivers the true, reduced-shadow white light you need to properly match shades, see details and diagnose tissue. Various mounting configurations are available to meet your design needs.

The accuracy of Midmark scales is dependable and precise up to 330 lbs.

Procedure Lights

Midmark 255 LED Procedure Light

- Significantly more light intensity than similar products at 7,500 footcandles, an excellent color rendering index of 95 out of 100, and a color temperature of 4,400 K

- Counterbalanced design allows easy positioning of the light, precisely where you want it, without drifting

- 16 LEDs reflecting evenly off of 1,040 reflective facets will reduce the disruption of shadows while you work, producing an even distribution of light for uninterrupted illumination

- Turn the light on/off and adjust light intensity from controls on each side of the light head

- LEDs have 100 times longer life than most halogen lamps while consuming less energy, resulting in significant savings year after year

- Sleek contours, a sealed light head and an autoclavable handle help save maintenance time and increase product life

- ES/IEC 60601-1, IEC 60601-1-6, CAN/CSA-C22.2 No. 60601-1:14, CAN/CSA-C22.2 No. 60601-2-41-11, IEC 60601-2-41, CAN/CSA-C22.2 No. 60601-6:11 CE Medical Device Directive, RoHS European Directive

Scales

LCD Cat Scale

- Spacious platform 20" x 14"
- Accommodates large cats
- Dependable and accurate
- Easy-to-read 1" LCD display
- Built-in sleep function
- Ounces or kilograms – weighs in 0.5 ounce or 10 gram increments
- 44 pound/ 20 kilogram capacity
- Powered with AC adapter or one 9-volt battery

110-5090-07   LCD Cat Scale

Platform Scale

- Post mount and no slip mat included with scale
- Stainless steel platform with drip edge
- The stainless steel provides long-lasting durability and easy wipe-down cleaning
- HOLD key on the remote display allows the animal's weight to be retained after leaving the platform
- Large 44" L x 22" W size with 330 lb capacity is ideal for weighing medium to large animals
- AC or battery power with low battery indicator and auto-off feature to extend battery life
- Adjustable feet for easy leveling
- Easy-to-read backlit display
- Tare feature for weighing using baskets or crates
- Can be mounted on a variety of lift tables

110-3110-00   Platform Scale

Monitoring

State-of-the-art Midmark diagnostic and multiparameter monitors provide the gold standard in efficient, accurate patient monitoring. Our family of total monitoring solutions features Cardell® BP technology, pet-specific algorithms and unique, pet-friendly features that make it easier to get reliable, precise readings, even in small companion animals.
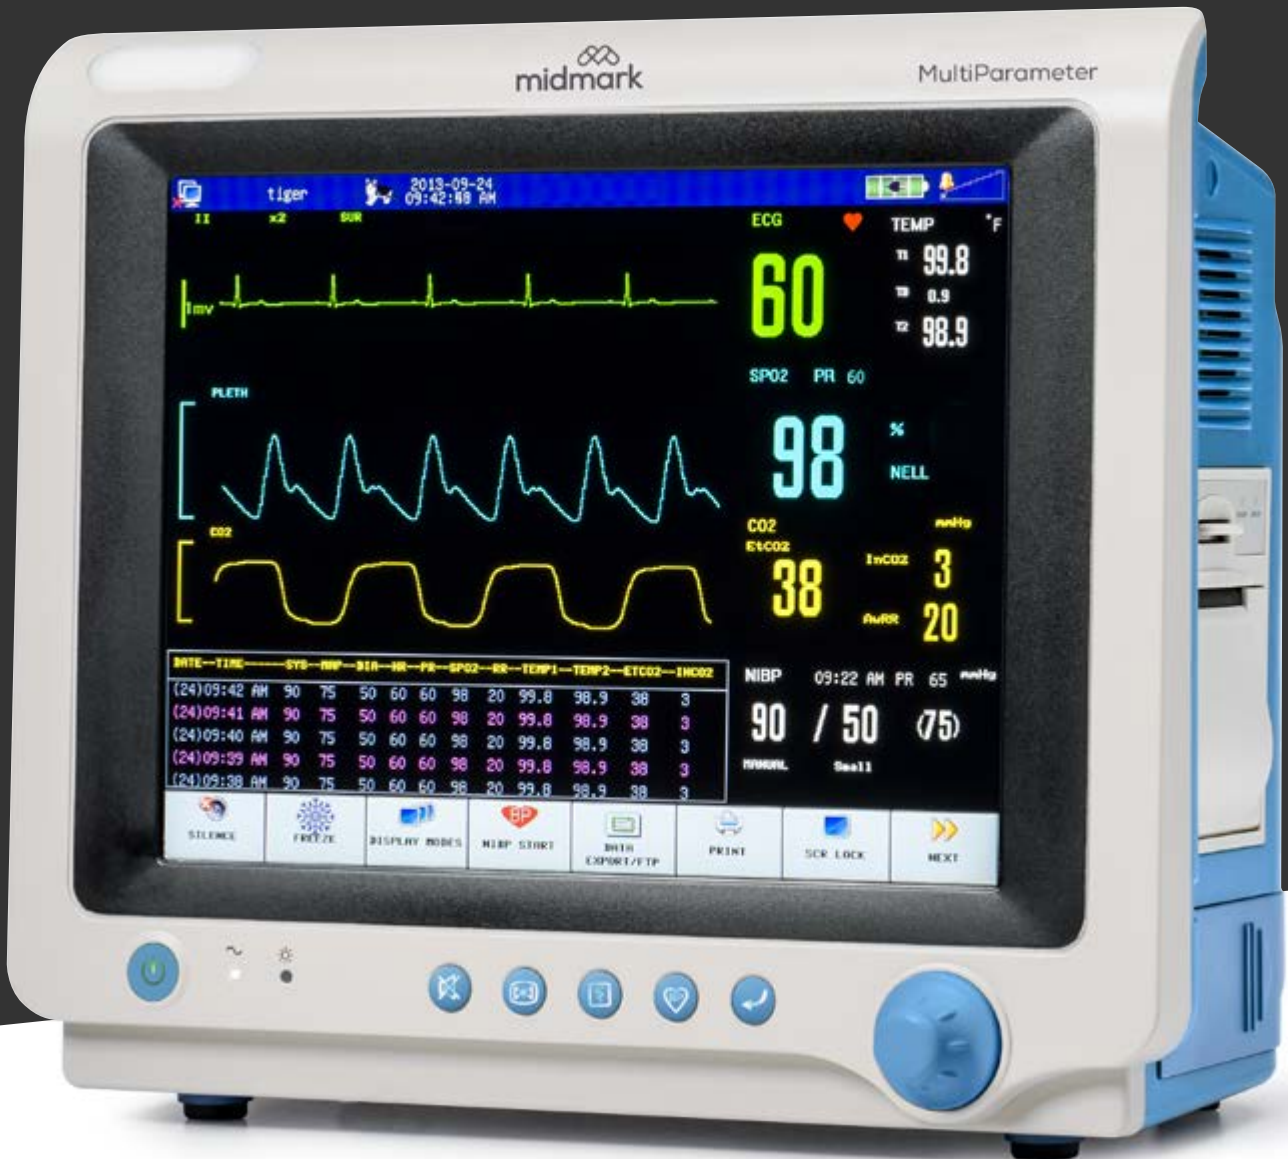

Multiparameter Monitoring

Midmark Multiparameter Monitor

Accuracy and reliability at your fingertips. Midmark has designed the precision and consistency you expect from the Cardell® name into a fast, lightweight and intuitive touch screen vital signs monitor.

Above all, a monitor should be safe, reliable and user-friendly. The Midmark Multiparameter Monitor is highly advanced, yet easy to use. It uses veterinary-specific algorithms and Cardell® Blood Pressure Technology.

- 10.5" touch screen makes patient set up faster and easier or use the traditional-style buttons located below the screen
- Well-designed menus and controls allow for intuitive navigation
- Smaller, lighter form factor allows for easy transportation without sacrificing visibility
- World-class Cardell® BP, Nellcor™ SpO$_2$ and upgrade to CO$_2$ monitoring at any time by adding a sidestream or mainstream CO$_2$ module
- Masimo Multigas available
- Enhanced ECG data export capabilities
- USB port for downloading patient data
- Customizable alarm settings for up to three users
- Optional integrated 3-channel graphical printer
- 2-year warranty

8013-001	Midmark Multiparameter Monitor with Printer

Diagnostic Monitoring

Midmark Diagnostic Monitor

Designed to be compact, lightweight, and durable, with an intuitive touch screen interface for ease of use. The Cardell® Blood Pressure Technology provides accurate and reliable blood pressure readings with optional Nellcor SpO_2 monitoring.

Popular uses include:
- Examination, treatment, surgery, recovery
- Monitoring patients as they are moved around your hospital
- Mobile practices and field monitoring purposes

Features:
- 3 animal-specific alarm settings provide quicker patient set up
- Bright 7" touchscreen display with anti-glare coating for better viewing from any angle
- Fixed touch selection provides quick and easy access to most used functions
- 10-hour battery life with five-minute auto mode for blood pressure allows for increased mobility
- 2-year warranty

Anesthesia Monitoring Training

Anesthesia Monitoring 101

Our comprehensive, hands-on, half-day anesthesia monitoring training is provided in your clinic by a member of the Midmark Animal Health Training and Education Network.

This training from Midmark Animal Health will help participants become familiar with best practices for operating and maintaining their anesthesia and monitoring equipment.

Training topics include:

- Anesthesia machine theory of operation, function of components and flow of gases
- Proper equipment maintenance for long-term performance and better patient outcomes
- Overview of ACVAA anesthetic monitoring guidelines for small animals
- Five-parameter, hands-on monitoring including circulation, oxygenation and ventilation
- How vital signs are measured and what the readings mean

Veterinarians and credentialed technicians who complete this session will earn four hours of CE credits* for Anesthesia Monitoring 101. Class size is limited to 10 attendees.

VI-AMT   Anesthesia Monitoring 101

4 CE Credit Hours!*

To set up your training session or if you have any questions, please contact your local distributor representative or email: **midmarkacademy@midmark.com**

Anesthesia Monitoring 201

Building on the skills of our 101 lab, our 201 lecture is provided in your clinic by a member of the Midmark Animal Health Training and Education Network.

Following the prerequisite Anesthesia Monitoring 101 dry lab, this lecture will help participants learn the keys to completing a successful anesthetic case.

Training topics include:

- Review of ACVAA/AAHA monitoring/anesthesia guidelines
- Setting up the patient for an anesthetic case
- Balanced anesthesia/pain management best practices
- Troubleshooting vital signs readings and anesthesia complications
- Developing an anesthesia record-keeping plan

Veterinarians and credentialed technicians who complete this session will earn four hours of CE credits* for Anesthesia Monitoring 201. Class size is limited only by the size of the classroom space.

VI-AMT2   Anesthesia Monitoring 201

4 CE Credit Hours!*

*This program was reviewed and approved by the AAVSB RACE program for four hours of continuing education in jurisdictions which recognize AAVSB RACE approval. Please contact the AAVSB RACE program if you have any comments/concerns regarding this program's validity or relevancy to the veterinary profession. Provider #436.

Royal Saddle Plus Chair

The Royal Saddle Plus Chair is designed in a way that is easy to adopt a better sitting posture while working. The small and round backrest gives precise support in the lower back and ensures maximum freedom of movement. The seat is in saddle shape, which means that you are not forced to adopt a 90° sitting angle, but are given the space to adopt a position where the knees are lower than the hips. This open hip angle makes it easier to stretch the back, so that it takes less effort to maintain a good work posture.

Tables, Tubs, Sinks + Groomi

Midmark lift tables take the "strain" out of lifting large patients, to allow positioning them easily and quietly. Spacious work surfaces are complemented by multiple options including scale top for taking weight at the time of the exam. The lift tables are available with hand or foot controls.

Midmark scrub sinks are a good addition to our surgery tables for pre-surgical scrub. The stainless steel construction will last the lifetime of your facility.

Midmark adjustable height grooming tubs are available in stainless steel or fiberglass. The stainless steel model is available with or without telescoping ramp while the fiberglass unit elevates occupants to allow for an efficient and ergonomic work environment for your staff.

ing

Exam Tables

Island Exam or Treatment Tables

The Midmark IT and DT Fixed Height Island Exam/ Treatment Tables are an ideal addition to your exam or treatment room. The table features a toe-kick base panel that wraps around the entire table, allowing you to approach your patient without obstruction. Choose from 44" and 59" lengths, weight capacity of 300 lbs, a variety of tops in stainless steel or laminate, and many door and drawer combinations including custom designs to meet your needs. Sturdy 18-gauge steel construction with baked-on epoxy finish gives your treatment center a long lasting, professional and aesthetically pleasing look.

Lift Tables

Midmark CM Dry Exam Lift Table

The Midmark CM Exam Lift Table is height adjustable from the floor up to a maximum height of 44", giving it the greatest range of motion on the market. The CM Exam Lift Table has quality features designed to create unparalleled efficiency in your practice:

- Table lowers completely to the floor and rises to 44" high

- 300 lb load capacity

- Perpendicular design allows for eye-to-eye contact with the client and unrestricted access to both sides of the table

- Only the tabletop moves, unlike other units where the tabletop and back move as one piece, so the scale weight display remains at eye level no matter the position of the table

- Table can be raised or lowered from either side via a toggle switch or by using the convenient foot pedal

- 115V AC, 60 Hz, 10 AMP

- 55-1/2"L x 25-1/2"W x 60"H

Midmark Mobile Lift Table

- Height adjusts from 12-3/4" to 37-1/2"

- Sturdy design with heavy duty lifting mechanism and motor is able to handle large animals

- 3" heavy-duty locking casters hold the table securely in place for exams and roll easily on even or uneven floors

- Rechargeable battery power allows the table to be used without being plugged in—charging process can be interrupted to allow table use

- Built-in battery charger—just plug in to outlet to recharge. Low-battery indicator "beeps" when charging is needed. Recharge takes only 4-6 hours.

- Large Exam Surface—22"W x 50"L 20-gauge stainless steel top with anti-drip-edges. Top has 1-1/8"-thick inner board for a solid, quiet working surface.

- Patient weight capacity: 225 lb

- Available with built-in scale for weighing at the time of exam

Treatment Tables

Midmark CM Wet Dental/ Treatment Lift Table

The Midmark CM Wet Dental/Treatment Lift Table is an adjustable height lift table with a wet treatment tub. The table is designed to eliminate lifting to the treatment table and to allow for a variety of operator positions. The tabletop lowers to within 9.5" of the floor and rises to 44" high. The shallow wet tub is excellent for all treatment and dental procedures. The conveniently located, temperature-controlled, ultra-light 8-ft sprayer extends beyond the table length for complete coverage and easy cleaning. The removable hair trap and easy-clean drain make maintenance a breeze. Connections provide for easy installation to hot and cold water and drain. Available in both 45" and 60" tables.

- Load capacity is 300 lb

- Freestanding, requires no bolting to floor or wall, and is completely finished including the back

- Fully assembled and ready for hook-up and immediate use

- Completely sealed units ensure a remarkably quiet actuator operation and require no internal maintenance

- 115V AC, 60 Hz, 10 AMP

- 45" Model is 62"L x 30"W x 60"H

- 60" Model is 77"L x 30"W x 60"H

Note: CM Table shown with Midmark Anesthesia Mount and Midmark VMS® (also available for Midmark VME2®). See pages 5 and 6 for pricing.

Wet Treatment Tables

This table features a standard 36" height that easily integrates with Midmark cabinetry giving your treatment area a uniform and aesthetically pleasing look. The wet tub is excellent for all treatment and dental procedures and is available in standard 6" or custom-order 3 1/4" depths. The removable hair trap and easy-clean drain make maintenance a breeze.

- Wall mount capability
- 18-gauge steel, more durable than wood laminates, withstands the most rigorous clinical work
- Load capacity of 300 lb
- Internal modular design allows you to customize door and drawer configurations to suit your needs
- Cabinetry features all the benefits of Midmark design such as steel hinges, seamless drawers and adjustable ball bearing glides
- Baked-on epoxy finish means no rusting due to water exposure
- The perpendicular orientation allows for access to both long sides
- Optional goose-neck faucet and sprayer attachment for easy post-procedure clean-up
- Available in Midmark cabinetry colors including woodgrain option (additional charge)
- 48" or 60"L x 25"W x 36"H
- One end open for plumbing

WT82.R312.A (Black inserts (312) shown)

Note: One end open for plumbing unless island configuration is specified at time of order. Additional configurations available.

Note: Shown with custom shallow tub configuration

Midmark Limited Warranty

SCOPE OF WARRANTY

Midmark Corporation ("Midmark") warrants to the original retail purchaser that it will repair or replace components of the animal health products manufactured by Midmark (except for products and components not warranted under "Exclusions") that are defective in material or workmanship under normal use and service. The sole remedy under this limited warranty is the repair or replacement, at Midmark's option, of the applicable products or components. This limited warranty shall only apply to defects that: (i) are reported to Midmark within the applicable warranty period; and (ii) are determined to exist upon examination by Midmark. This limited warranty extends only to the original retail purchaser of a product, and is not transferable or assignable.

APPLICABLE WARRANTY PERIOD

The applicable warranty period for each Midmark product commences on the date of delivery to the original retail purchaser of the product and shall continue for the period specified in the attached Warranty Guide, which Warranty Guide is expressly incorporated herein. References in the Warranty Guide to specific component warranty periods are in place of and supersede the generally applicable warranty period for the product under which the component is listed.

OBTAINING WARRANTY SERVICE

Warranty service must be obtained through either Midmark or an authorized dealer in the Midmark product line for which warranty service is requested. Midmark may be contacted for warranty service inquiries or issues via email at www.midmark.com, by mail to Midmark Corporation, 60 Vista Drive, Versailles, Ohio 45380, or by phone at: 1-800-MIDMARK.

It is the retail purchaser's obligation to arrange for delivery of a product to Midmark or one of its authorized dealers for warranty service, which delivery shall be at retail purchaser's expense. It is also the retail purchaser's obligation to comply with the warranty service instructions provided either by Midmark or its authorized dealer. The retail purchaser must provide Midmark with completed warranty registration information within thirty (30) days after purchase in order to obtain the benefits of this limited warranty.

EXCLUSIONS

This warranty does not cover sinks, faucets and plumbing accessories. Any warranties on these items are extended directly by the manufacturer of these items to the original purchaser. Information on these manufacturers' warranties will be enclosed with the applicable products. Also, Midmark will furnish copies of any warranties extended by any such manufacturers upon request.
This warranty does not cover and Midmark shall not be liable for:
(1) repairs and replacements required because of misuse, abuse, negligence, alteration, accident, freight damage or tampering; (2) matching of color, grain or texture except to commercially acceptable standards; (3) changes in color caused by natural or artificial light; (4) products which are not installed, used or properly cleaned as required in Midmark's written Installation Manual; (5) specially manufactured products; (6) products considered to be of a consumable nature such as light bulbs and surge suppression products; (7) accessories or parts not manufactured by Midmark; (8) charges by anyone (including Midmark's authorized dealers) for adjustments, repairs, replacement parts, installation or other work preformed upon or in connection with such products which is not expressly authorized in writing in advance by Midmark.

EXCLUSIVE REMEDY; CONSEQUENTIAL DAMAGES DISCLAIMER

Midmark's only obligation under this limited warranty is the repair or replacement of defective parts. Midmark shall not be liable for and hereby disclaims any direct, special, indirect, incidental, exemplary or consequential damages or delays including, but not limited to, damages for loss of profits or income, loss of use, downtime, cover, and employee or independent contractor wages, payments, and benefits. This disclaimer shall survive any failure or asserted failure of the essential purpose of this limited warranty or its remedies specified herein.

NO AUTHORIZATION

No person or firm is authorized to create or approve for Midmark any other obligation or liability in connection with Midmark products.

WARRANTY DISCLAIMER

THIS LIMITED WARRANTY IS MIDMARK'S ONLY WARRANTY AND IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED. MIDMARK MAKES NO IMPLIED WARRANTIES OF ANY KIND INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

STATUTE OF LIMITATIONS

No action may be brought against Midmark for breach of this limited warranty, an implied warranty, if any, or for any other claim arising out of or relating to the products, more than ninety (90) days following expiration of the warranty period. In the event multiple warranty periods exist with respect to a product, the ninety (90) day period provided for herein shall begin to run from expiration of the warranty period for the component to which the claim relates.

SEVERABILITY

In the event any provision of this limited warranty is determined to be invalid or otherwise unenforceable: (i) the provision shall be enforced in a manner that closest holds to its intent, while at the same time curing the invalidity or unenforceability, and (ii) the balance of this limited warranty, being severable, shall not be affected in the event the provision that is invalid or unenforceable cannot be enforced in any respect.

Products from the Midmark Carthage, MO and Leesburg, OH locations are warranted for 1 year from the date of delivery to the original purchaser only unless specified in product warranty guide. Warranty is only applicable if customer complies with all instructions and specifications furnished by Midmark relating to installation, care, and application. Customer agrees that they will not modify, misapply, or misuse product in any manner which deviates from the Midmark instructions. Any repairs, alterations, or services provided by parties other than Midmark or its authorized representatives may void warranty. The buyer is responsible for all freight charges on returned items.

Midmark Product Ordering

1. ORDERING
Please include the following with your order:
- Quantity
- Part number
- Description
- Signature of person placing the order
- Approximate shipping date required
- Method of transportation
- Purchase order number

Model number and name of item must be specified on purchase order. Minimum Order - $25.

2. SPECIAL DESIGN
Orders for equipment, cabinetry and containment/boarding of special design, construction, finish or upholstery are not subject to cancellation after your acceptance of our acknowledgement. Special design products, custom design cabinets and special upholstery WILL NOT be accepted for credit.

3. RETURN OF MERCHANDISE
Authorization must be obtained for the return of any item. If return is authorized, transportation charges must be prepaid. Items returned for credit are subject to a charge of 25% or more to cover inspection, reconditioning and repackaging. Anesthesia accessory returns are not accepted for rubber goods over 30 days old, rubber goods not in original, sealed package and all hoses. Goods without a Return Goods Authorization (RA) and merchandise more than 90 days old (from Midmark invoice date) are also not accepted for return.

Note: Certain items are non-refundable: Specials, Midmark Cabinetry, Containment/Boarding, Care Exchange™ Workstations, Discontinued Items or Parts, Custom or Non-standard Colors, Service Upholstery and Service Parts if value is less than $50.

4. FREIGHT DAMAGE
It is the consignee's responsibility to count and inspect upon receiving. Merchandise arriving with external damage should be described on Proof of Delivery, Delivery Receipt or Bill of Lading. In case of concealed damage, consignee must contact the carrier within 5 days after receipt and claims for damage instituted.

5. IMPROVE PRODUCT QUALITY
Midmark Corporation reserves the right to change design and construction without notice.

6. ORDER CHANGES
Any requested change to an order after the acknowledged ship date could result in an extentions of the schedujled ship date. The new ship date will be re-scheduled/acknowledged based on the extent of the changes requested.

7. CABINETRY ORDER CHANGES
All changes should happen before reciept of the orders. Order changes made after reciept of an order may incur a fee and a shipping date change. This fee will cover materials, labor and handling costs. All changes must be submitted in writing. Upon rewiew and approval of changes, the order will be moved to the next availalbe ship date.

8. SPECIAL ORDER REQUIREMENTS
Any order requiring special deviation from standard products will carry the following disclaimer:

We hereby accept and acknowledge the above captioned order provided, however, because of the special nature of this order in that this equipment is being supplied upon special design specifications, special materials, and/or field modification, as per your request, the standard warranties of Midmark on its products are not applicable to the order, and this acceptance and acknowledgement is conditioned upon your indemnification and promise to hold Midmark, its officers, employees and agents, harmless in respect to any and all warranty claims, damages, both direct and consequential, expenses, costs, and any liability arising from the use of or relating to this special equipment.

9. ANESTHESIA SERVICE AND REPAIR POLICY
Midmark offers evaluation and repair service on Midmark anesthesia equipment. Products returned for repair require a return authorization (RA). Contact Customer Experience at 1.844.856.1236, press 1 then 108911, to obtain an RA number. Send the product freight prepaid.

Vaporizers returned for servicing also require an RA. A purchase order number must accompany the vaporizer. Subsequent to servicing, each vaporizer has a separate service and performance record established which is placed on file in the Midmark Vaporizer Service Center in Versailles, Ohio. Should the need arise to verify that your equipment has been maintained to manufacturer's specifications, we will be happy to supply this information.

10. IMAGING ORDER INFORMATION
Imaging products are not available through all Midmark authorized dealers. Please contact Midmark Animal Health Customer Experience if you need assistance locating an authorized dealer in your area.
